

Wingham Primary School

4th December 2023

A message from the Head of School to Parents...

We are going to start with an important message about idling in the carpark at the end of the day.

“ Idling increases the amount of exhaust fumes in the air.

These fumes contain a number of harmful gasses including carbon dioxide, which is bad for the environment and contributes towards climate change, as well as a range of other harmful gasses including nitrogen dioxide, carbon monoxide and hydrocarbons which are linked to asthma and other lung diseases”

An idling car can fill up to 150 balloons with harmful emissions every minute!

Thank you for your consideration and making changes.

Junior Badminton—Please see attached flyer for badminton clubs in our local area.

Our children play badminton in Year 6 and really enjoy it, they may like to further develop their skills outside of school.

We hope everyone has a wonderful time at the Christmas Fayre this afternoon. The PTFA have done a marvellous job that I am sure everyone will thoroughly enjoy!

Thank you for our beautiful Christmas tree! It is stunning and adorned with the decorations the children have made in class.

The teachers have given Kirsty Alsop a run for her money this year!

Wishing everyone lovely weekend. Ms Douglas
