

### A message from the Head of School to Parents...

We had the most exciting day yesterday! Children across the school took part in assembly and a rocket making workshop. They were learning about forces and space while showing their creativity making rockets that were fired up into the air above our playground. We hope the children went home inspired, we certainly were.

**After School/ CASH club donations:** If you are having a sort out and have any puzzles (200 pieces or less), board games such as Boggle, Buckaroo, Operation, Hungry Hippos, Battleships please could these be donated to the school. Thank you!!!

Our school site is a non-smoking area. While it is not our property we ask that people do not smoke where other parents are waiting to come into school to protect their choice not to be exposed to second hand smoke.

We haven't got close to catching Mr Pile on practicing at home so we can knock him off

yet so keep the top!

Congratulations our new Year 6 house captains and our Head of School Council. I very much look forward to working with you all to continue to adapt and make positive changes to our wonderful school!

**Wish you a happy weekend in the sun!**

**Ms Douglas**
