

A message from the Head of School to Parents...

Work and Enterprise Week

School has been a hive of activity this week with the children making and creating their enterprise product. This year we have explored the value of money and the difference between items we *want* and *need*. We have thought about the value of money and learning how much everyday items cost. Further up the school we have thought about different peoples life experiences. They have challenged stereotypes when thinking about job roles. Some great discussions!

On Tuesday we all watched a performance about looking after yourself and your mental health. We heard the space robots tell everyone about healthy eating, turning off devices and being kind to yourself and others.

Our School Carpark

Please only use this before and afterschool if you have authorisation and please drive very slowly and carefully.

Celebration assembly

On the last day of term we celebrated our school values. Well done to everyone who was awarded a badge/ certificate today as well as the children who received the RICH bands.

Talent Show

There will be auditions after the half term holiday. Actual date TBC.

Happy half term everyone!!!

School Attendance

Wingham	National Target
Last week 94.5 %	95%
This week 94.5 %
